26	BASIS FOR COMPARISON	SINGLE ENTRY SYSTEM	DOUBLE ENTRY SYSTEM	1x4=4			
	Meaning	The system of accounting in which only one sided entry is required to record financial transactions is Single Entry System.	The accounting system, in which every transaction affects two accounts simultaneously, is known as the Double Entry System.				
	Nature	Simple	Complex				
	Type of recording	Incomplete	Complete				
	Errors	Hard to identify	Easy to locate				
	Ledger	Personal and Cash Account	Personal, Real and Nominal Account				
	Preferable for	Small Enterprises	Big Enterprises				
	Suitable for tax purposes	No	Yes				
	Or						
	The limitations of Single entry system of bookkeeping are as follows :						
(a) As double entry system is not followed, a trial balance cannot be prepared and accuracy of accounts cannot be ensured.							

(b) Correct ascertainment and evaluation of financial result of business operations cannot be made.

(c) Analysis of profitability, liquidity and solvency of the business cannot be done. This may cause a problem in raising funds from outsiders and planning future business activities.

(d) The owners face great difficulty in filing an insurance claim with an insurance company in case of loss of inventory by fire or theft.

(e) It becomes difficult to convince the income tax authorities about the reliability of the computed income.
